Diagonal Mar is the only coastal area in Barcelona that has a reputation as a prestigious area. Once there, just 10 minutes away by convenient high-speed tram from the center, you get to the city of the future, completely different from the rest of the Catalan capital, with its usual narrow streets and modernist houses. Growing up as a continuation of the business zone @Diagonal, this territory next to the sea is a concentration of skyscrapers, business centers, ultramodern residential complexes and five-star hotels. The epicenter of the district is the Diagonal Mar Park, the second largest park in the city, with a collection of curious futuristic sculptures, as well as the shopping center of the same name, which includes 200 stores of the most famous brands and Auchan supermarket. In a 15-minute walking distance there is located the new yacht port Forum, with an impressive selection of restaurants, bars and clubs, as well as the beaches of Marbella and Nova Marbella, famous for their clean sand and water.
